Subject: FW: Transfer Inquiry 10/762,663.

Hi William,
Rubber, natural or synthetic is classif. by the office as synthetic resin. looks like 524/35+ to me Au 1711.

Thanks,

Jerry

Subject: Transfer Inquiry 10/762,663.
Importance: High

Applicant's amendment filed 07/10/2006 leaves only composition claims that I believe belong in 106/2.

If the case is yours, please re-docket.

If not, please suggest an alternate home for it.

Please note: this application has been made special. Your prompt attention is much appreciated.

Thanks!

William Fletcher
